It Happened TODAY

People

Former German Field Marshal Albert von Kesselring is spending an eight-day leave in Munich on his word of honor he will not perform any military duties while he is serving life imprisonment.

A \$235,000 mile flight from East Africa ended at Winnipeg for 16-month-old Stewart Purdie, whose mother brought him to Canada for poliomyelitis treatment by J.C.U.P.

Newfoundland

"In this century... it's a novelty to find a community voluntarily agreeing to accept a lower political status," said a local newspaper in reference to Newfoundland.

Study of foreign transmission rates for commercial, private and public schools in Newfoundland and Canada is being given top priority by government commission report.

Religion

Charges that Toronto teachers are trying to convert Jewish children to the Christian faith were denied by Murdoch Melver, president of the Toronto Public School Principals' Association.

Members of the Summerfield Mennonite sect who migrated to Paraguay earlier this year from the Goldfields district near Swift Current, were reported to be seeking transportation to their former Canadian homes.

Miscellany

Australian pianist Eileen Joyce will watch out for the play Tchaikovsky's last symphony first concerto. Last night she played it in London's Royal Albert hall when she failed. Last night she played it in London's Royal Albert hall when she failed.

CCF leader M. J. Coldwell told a radio audience he was insulted by George Drew when they both appeared at Acadia University last Friday.

Stating "my wife and I that I'm quite fine," Mayor W. M. Holt of New Westminster officially retired as head man of the coast city.

Christmas

Ten thousand British Columbia loggers "bush" from the woods, headed to Vancouver for the Christmas holidays.

Commenting on reports that provincial police are being used to guard trucks bringing Toronto liquor supplies to Windsor, Ont., Attorney-General Blackwell said he has no knowledge of such a plan.

Europe's children will find more of their 1948 Christmas stockings than at any time since the war, according to a British United Press survey which said toys, although high in price, were plentiful on both sides of the Iron Curtain.

Nation

A wider and more severe grasshopper outbreak than last year was predicted for 1949.

Three men were fined a total of \$600 at Winnipeg for the illegal slaughtering of deer and an attempt to smuggle the mutilated carcasses out of the Northwest Territories.

Ontario

Ontario department of lands and forests has been asked to consider the province's declining moose population.

Boys! Girls!

Come to the Party!

Next Saturday Morning, Dec. 18

At Half-past nine in the morning all the TAWASI members and their guests, C.R.P.'s Magic Shopper, will have a big Christmas party.

PLACE—Recreation Building, 10280 100th Street, one block South of the C.N.R. Station. (The old USO Hall).

HELP US— Cut your favorite comic strip out of the Bulletin and bring it to the party. We'll have an even Steven track—what YOU like best in comic for what YOU like best in food!

Please enrol me in the Tawasi Club.

Commerce Group Blasts Communists

Prime Minister Hears Brief On Prices, Profit

OTTAWA, Dec. 14.—(CP)—Chamber of Commerce views on government were given Prime Minister St. Laurent and his cabinet in a half-hour interview which the business executives described as "a very fine discussion."

The Canadian Chamber executive board, headed by President Henry G. Binks of Montreal, particularly emphasized the need for a new anti-trust act to meet the challenge of Communist infiltration in Canada.

Meeting in private, the Prime Minister and his cabinet were reported to have said they were interested in the suggestions made and that some of these suggestions were already subject of pending government action.

There were no radical proposals in the recommendations to the cabinet but amendments to the Criminal Code and to the industrial dispute legislation were suggested as a means of preventing Communist control of labor unions and tightening the law against treason.

The Chamber also suggested that Communists should be kept out of government service and of vital public utility problems.

The Chamber's brief argued that the "no factual support" of the widely-publicized report that profits are the cause of high prices and claimed that as one means of providing better nutrition and educational opportunities to rural areas.

"The implications involved in allowing the sale of oligarchical lands in Canada are more far-reaching than most Canadians appreciate," it stated.

It pointed out that the fact that here is a substitute for butter and that while it may reduce the need for butter production to some extent that it will make little difference to the general public providing the substitute is nearly as good as the butter. This is a short-sighted interpretation.

OTHER BRANCHES HIT

"The production of milk in western Canada is very closely associated with the raising of hogs and poultry, both of which produce milk from the dairy industry. A reduction in dairy production will reduce the supply of milk for poultry production but even more serious is the effect on the hogs between the dairy industry and the growing of legumes.

"The dairy industry is a natural consumer of forage crops and grain and any reduction in the greatest single factor being used in western Canada today to build up the fertility of our soil and to prevent soil erosion. The tie-up of land in the dairy industry is a conservation of the utmost importance."

Albert von Kesselring... Promises his return, he said, to his native Germany. He is the restoration program which has been restoring property looted by the Nazis.

U.S. Affairs

W. F. A. TURGEON, Canada's high commissioner to Eire, praised United States aid to Europe at a ceremony beside the Dublin docks, to welcome the first ship bringing Economic Recovery supplies.

Congress was to enact long-delayed civil clearance and housing legislation in January, by the American Municipal Association.

United Nations

Only means of avoiding a third world war was a greater unity of the United Nations Assembly, according to Gen. A. G. L. McNaughton.

When the country of the size of Canada we can say that the country as a unit is in a relatively prosperous condition.

A year ago those engaged in agriculture faced difficulties, largely the result of poor crops over most of the country. In the past year, however, the situation has been the most part of high yield.

With regard to the matter of exportable surplus, the wheat agreement with Great Britain and Canada has one more crop year to go before expiry. In the coming months, therefore, it will be necessary for us to reconsider our position in the world wheat market.

The world wheat market is a very complex one. The designated time limits, so that Canada, if new agreements are made, will have to search for markets where our surplus resources can be placed before the government. There have been discussions in recent years as to the possibility of a program for orderly international marketing and distribution of food supplies.

INDUSTRY

Industrial production continues to increase although at a slower rate than in the past. In part this is due to the fact that the demand for many of the products of the United States had to be curtailed to conform more closely to our reserves of American dollars, and in part because of shortages of some materials, both in Canada and elsewhere.

While there are no one-made steel in our country, our exports to the British group declined by more than one hundred million tons in the last year. This was due to a number of factors, including the fact that the United States has been reducing its steel output, and that the British group has been increasing its steel output.

A notable improvement in the direction of our trade with the United States is the fact that we have been able to export more Canadian goods and materials of all major types to the United States. In the last year, for example, we exported \$100 million more to the United States than in the year before.

It is interesting to note that the United States has been able to export more Canadian goods and materials of all major types to the United States. In the last year, for example, we exported \$100 million more to the United States than in the year before.

Early Making Of Margarine Seen

(Continued from Page 1)

One major packing plant authority who declined to allow use of margarine in its products said that margarine was being made in eastern Canada to start manufacturing.

He said he believed margarine would start coming out of the country in the near future.

Margarine makes extensive use of vegetable oils, most of which are imported from the United States. The use of vegetable oils in margarine is not a new thing, but it is a new thing in Canada.

One factor in the making of margarine is the price of the raw materials. The price of vegetable oils is high, and the price of the raw materials is high.

Another factor in the making of margarine is the price of the raw materials. The price of vegetable oils is high, and the price of the raw materials is high.

Rail Revenue On Prairies Is Lower

Costs Vary With Traffic
Density Board Is Told

OTTAWA, Dec. 14.—(CP)—Cost figures of the Canadian Pacific Railway were presented in detail to the Board of Transport Commissioners today in the mountain differential freight-rate case.

Howard Reid, assistant to the CPR controller, was on the witness stand as the board considered evidence in the British Columbia case. The board is also considering the government's application for removal of the above-normal, mountain rate.

The official submitted comparative figures for costs of CPR operations in different districts of Canada.

Mr. Reid testified that in the 12 months ended Sept. 30 gross revenues per ton-mile of freight were higher in the west than in the east for the CPR, though lower on the prairies than in British Columbia.

MILE FIGURES

The ton-mile figures are: Pacific region, 1.35 cents; prairie region, 1.18; eastern region, 1.40; all lines, 1.31.

A table of costs for maintenance of ways and structures showed that in 1947 these amounted to \$2.32 per mile in B.C.

This figure was exceeded in the Manitoba, Alberta, Ontario, Quebec and New Brunswick districts.

Cost per mile of maintenance, fences and snow sheds in B.C. was the third lowest of the Company's 10 districts. They were \$24.8 per mile.

House-removal cost in B.C. at \$280.00 per mile in 1947, also was third lowest, according to another table given by Mr. Reid.

For train fuel in 1947, the B.C. district was the 1,000 greatest ton-miles was exceeded by four other lines.

It compared with an all-line average of 44.8 cents. Highest was \$4.24 on the Manitoba-Alberta Railway in Nova Scotia. Lowest was 38 cents on the Waterhead.

Cost of water for train locomotives in B.C. at \$5.00 per 1,000 tons.

UNHAPPY LOVER SHOOTSELF

LOS ANGELES, Dec. 14.—(AP)—Blonde Patricia Styles, 25, daughter of radio entertainer Hal Styles, shot and killed herself, detectives reported, after wounding her estranged friend, auctioneer Nathan N. Sugarman, 45, as they sat talking in his automobile last night.

Detectives said the tragedy apparently developed from an unsuccessful romance. Miss Styles and Sugarman had been going together for some time but broke up six months ago.

Sugarman was shot in the leg and grazed on the head by one bullet.

Costa Rican Citizen Army Fights Invaders

SAO JOSE, C.R., Dec. 14.—(AP)—A hastily mobilized Costa Rican citizen army has thrown up a defense line in the northwestern part of the country to contain an invasion force from Nicaragua that crossed the frontier four days ago, it was announced today.

A government communique said that the invaders have not attempted to move out of the village of La Cruz, about five miles inside Costa Rica, according to reports from scouts in the jungles of that province.

The communique made no mention of invaders being in the high town of Liberia, 30 miles inside the frontier, which had been reported seized Friday and Saturday along with La Cruz.

CARGO SHORTAGES In shipments to Canada from Great Britain were covered up by wads of hemp ash as the one held by James Edwards, freight claims agent of Canada Steamship Lines. His jacks are believed to have cost Canadian shippers \$1,000,000.

Vet's Land Act Near \$200,000,000 Mark

OTTAWA, Dec. 14.—(CP)—The Veterans Land Act is moving towards the \$200,000,000 mark in its investment of federal money to settle veterans on the soil, and it's still wide open for newcomers and apparently will be for years.

It has already spent roughly \$165,000,000 to establish ex-servicemen on full-time farms, small holdings, provincial lands and commercial fishing properties, to build homes, to buy stock and equipment.

HEAVY PERIOD OVER The heaviest period is over, the staff has slimmed from 1,800 to 1,400, but applications keep coming in, and the time limit has been set by the government on use of a large of legislation that amounts to an instrument for subsidized and calculated settlement of Canada's farmhands by hundreds of men.

So far, a considerable extent to buyout farm prices, the settlement scheme has seen few failures. A considerable number are ahead of their payments.

The small holdings section, it runs neck and neck with full-time farming in total expenditures, abandoned the multiple project method of building homes. After numerous troubles but still is asking hundreds of veterans to build individual homes. The minimum acreage was raised a couple of years ago from half an acre to three acres if they cost \$500 or less, and two if the cost is beyond \$500.

Nearly 30,000 men have benefited under financial provisions which provide for a down payment of 10 per cent on a maximum \$500 mortgage. The man gets a conditional grant of \$1,400 if the full \$500 is used for land and permanent improvements. He can get \$2,200 if \$1,200 of the \$500 is used for stock and equipment.

Mortgages are paid off in 25 years at 3 1/2 per cent interest.

The veteran has to finance any expenditure beyond \$8,000 by other means. This means that if it finally cost him \$8,000 to build a home on a small holding somewhere on the outskirts of a city or town, he would have to finance

DISTRICT NEWS IN BRIEF

Wetaskiwin Plans Memorial Centre

WETASKIWIN, Dec. 14.—Plans for an artificial ice arena for Wetaskiwin may be expanded into a much larger project, partaking of the nature of a Memorial Centre. In addition to an artificial ice arena it also would contain many other features, including a swimming pool and be a headquarters for cultural as well as sports activities, aimed to care for both young and old in the community.

This was brought out at a meeting of the Wetaskiwin Board of Trade last Friday evening, when delegates representing both the Wetaskiwin branch of the Canadian Legion and the Kinnelon Club appeared before the board and asked that it act in the capacity of a co-ordinating agent.

The suggestion made was that the Board of Trade should communicate with all the various organizations, both in the city and district, asking them to appoint one or two delegates to a general meeting from which might be organized a Community Council. Under such broad sponsorship it was felt many needed projects might be undertaken from time to time, which with the full weight of membership of all, might readily be brought to success.

Wm. Drayner, president of the Board of Trade, expressed his sympathy with the idea as outlined and after some discussion by various members, a motion embodying the suggestion was passed.

Citizens and the City Council will be asked by the Board of Trade, to join in an effort to keep sidewalks clear of snow. The average individual's part in keeping his own sidewalk clear while the City Council is asked to clear the snow from unoccupied lots and also for those who by reason of age or infirmity are unable to do so.

Reports were received regarding the Wetaskiwin Board of Trade's

application to the Board of Trade Commissioners asking for the removal of the mountain differential.

Spruce Grove Boy Is Medal Winner

STONY PLAIN, Dec. 14.—Eric John Bergbush, a 1948 grade nine student of Spruce Grove public school, will shortly be presented with the Governor-General award. This award was won by Eric for having the highest average marks in the division in the final examinations. It will be presented by the Hon. J. G. McCreery, Minister of Education.

Six Spruce Grove students received home standing in last year's exams. Glen Carmichael is teacher.

Elevator Offices Destroyed By Fire

BEAVERHILL, Dec. 14.—Fire which is believed to have started from an overheated stove, completely destroyed the offices of the U.G.E. elevator Co., here recently. A light north wind blew the flames away from the elevator and the corrugated tin sheeting on the roof spread.

Reports were received regarding the Wetaskiwin Board of Trade's

Vegreville Overcomes Ice-Making Problems

VEGREVILLE, Dec. 14.—Following on weeks of ice-making, both the Vegreville hockey arena and the Heather Curling Club rinks will be open for action in the coming week, weather conditions holding as in the past few days.

There are sufficient registrants to form 20 rinks and of these 24 have already been formed. Skips are as follows: A. W. Shaw, Minich, Campbell, Scott, Schmidt, Brinlan, Walden, Zastrow, Mandrak, Jeff, Loeke, Cantrell, L. Tillapaugh, Gehring, G. Warren, N. Warren, Pawluk, Nichol, Leitch, Belcher, F. Shaw, Herschuk, and Steele.

Priority of hockey will be held at the arena during the season. A senior hockey league has been formed in which Vegreville will be represented by the Rangers, several intermediate champions of the province and of western Canada too on one occasion. Other entries are Two Hills and Willingdon.

The organization is to be known as the "Eagle" League named after the adjacent Municipal district of Eagle. The Chairman of Vegreville, and C. G. Strong of the same town have been elected President and Secretary-Treasurer respectively.

Women's Institute Holds Election

WETASKIWIN, Dec. 14.—Mrs. J. Cooper was elected president of the Falun W.I. at the annual meeting held Dec. 8 at the home of Mrs. K. D. Sjolin. Other officers elected were, Mrs. Frank Kadler, vice-president; Mrs. H. N. Stewart, secretary-treasurer. Directors elected were Mrs. R. Cronin, Mrs. K. O. Sjolin and Mrs. A. A. Mianikoff.

The Falun branch of the W. I. donated \$20 to the cancer fund and \$10 to the Crippled Children's Fund.

The Sports Club is raising funds to purchase a plant to install electric lights on the rink and have already collected donations amounting to \$109.

Scouts Set Up Toy Repair Shop

HANNA, Dec. 14.—The Hanna boy scouts have set up a toy repair shop where discarded toys will be repaired and given to needy children at Christmas time. The scoutmaster, Dr. G. D. Wilkins, will supervise the work.

Mrs. R. W. Manley Buried Saturday

WETASKIWIN, Dec. 14.—Very largely attended was the funeral Sunday afternoon at 2:30 of Mrs. R. W. Manley, whose sudden passing on Thursday morning brought grief to a wide circle of relatives and friends.

The solemn rites of the Anglican church were said in Immanuel Church, with Rev. William Elkin, Edmonton, the officiating clergyman.

Funeral services were William Jansen, William Odell, L. B. Yule, Thomas Palmer, H. R. French and C. H. Russell.

The church was filled with many friends in the city and district and from farther away. Kivans from Edmonton were represented and Mrs. R. Marshall and Mrs. Griffith of Edmonton represented the provincial executive of the RODE in which the late Mrs. Manley had been interested for many years.

There were many floral tributes.

Vermilion Agros Stage Bonspiel

VERMILION, Dec. 14.—Sixteen risks of farmers battled all day Saturday in the Vermilion curling rink. Prizes were donated by local merchants and draws were made by the club draw committee.

Prizes in the primary event went to the following: Martin of Willmery, 2; See, V.S.A. students; 3; Nels, 4; Kreiler.

Secondary events: 1. Stromer, 2; Harvie, 3; H. Cross, 4; Wiese. The show was well attended and a good band of curling displayed. Eastern Alberta Hockey league opens the season here Wednesday with the Lloydminster Meteors playing Vermilion Tigers on Wednesday evening. Lloydminster hockey plays the Wainwright Buffaloes on the same evening.

Bawlf Curlers Name Executive

BAWLF, Dec. 14.—At the December meeting of the Bawlf Curling Club chose as a new executive the following: President, C. Ward, vice-president, D. Robson, secretary-treasurer, H. B. Still, ice-maker, J. Vrolijk, caretaker, F. Lemke.

The ice will be ready very soon and the draws made up. Plans for a mixed and a farmers' bonspiel early in the season have been made.

Jasper Park to Have Youth Hostel Camps

JASPER, Dec. 14.—Youth Hostel, primarily an United States organization, has established headquarters in Calgary and enlisted the aid of setting up camps throughout Jasper Park.

The aim of this arrangement is to construct bunk houses and kitchens at strategic points some 15 or 20 miles apart, thus enabling the Youth Hostel groups to explore these regions of Alpine beauty and live comfortably at a minimum.

Ten camp units, consisting of two bunkhouses and a common kitchen are under construction within the park area. Four of them will be ready for use early next year. One is on the Carrell road within sight of the spectacular Angel glacier and Astoria River Valley. Another is at beautiful Athabasca Falls. A third at Grice and the fourth at Maligne Canyon.

It is evident from the choice of location of these units that campers will have access to a wide variety of valley lake and mountain scenery. Next year will see hundreds of American boys and girls taking advantage of the opportunity to see Jasper Park the easy way.

McMurray Boys Raise Over \$125

FORT McMURRAY, Dec. 14.—McMurray Boys Club held a very successful dance and raffish. The club, under the able sponsorship of E. G. Gault, raised over \$125.00 with this function.

The money is very welcome as this is the only way the club has of raising funds for this worthy cause. Mr. Garth Moore was raffled off and Roy Harper won the door prize.

Willingdon Opens New Seed Plant

WILLINGDON, Dec. 14.—First seed cleaning plant in the area to be established in Alberta has been opened by the Willingdon Agricultural Society at Shandro, 7 miles north of town. The farmers can take their seed wheat, barley or flax to the plant and have it cleaned with the up-to-date machinery and equipment.

Coroner's Jury Returns Verdict

HANNA, Dec. 14.—An inquest into the death of Lenus Webster was held at the Hanna Petrol Station No. 3 on Friday, Nov. 15, was conducted by the coroner, Dr. J. Hazen, at the Court House, jury returned verdict of accidental death caused by a flash fire ignited by static at the top of the drill pipe.

Every witness testified that during the drill stem test every precaution had been taken. The jury members were: E. Schoppe, of Delta, chairman; J. Robinson, G. C. R. Moore, M. Gillis and A. J. Wagner.

Institute Holds Annual Meeting

MILLET, Dec. 14.—Annual meeting of the Winesford W.I. was held at the home of Mrs. F. C. Hall on Thursday afternoon, seven members and one visitor attended.

A parcel of used clothing for overseas was packed to be sent to Mrs. McCormack, who will in turn send it overseas.

Mrs. Morton, provincial president A.W.I. for the urgent appeal for money for the crippled war children's fund.

The election of officers for the coming year resulted in: president, Mrs. Robert Arncliffe; vice-president, Mrs. E. H. King; secretary, Mrs. B. Arncliffe; directors, Mrs. F. C. Hall, Mrs. H. S. S. Mrs. E. Mortenson; conveners, Handcraft, Mrs. Hall, Citizenship, Mrs. F. King, Education, Mrs. E. Mortenson; Social service, Mrs. H. Charles M. Scott of Consort, the transfer to become effective Dec. 17.

Pony Stumbles Injuring Rancher

STUBBS, Dec. 14.—A local rancher, Percy W. Eaton, received serious injuries when thrown from his saddle pony, Mr. Eaton was out hunting horses when his pony stumbled in a ditch. Although the injury was around 30 degrees below zero, Thomas Hewson, local trustee, was able to get his car started and took the injured man to the hospital at Egan, where it was found he had a fractured bone in his shoulder and some bruising.

Chest X-Ray Unit Continues Work

LETHBRIDGE, Alta. Dec. 14.—(CP)—A tuberculosis chest X-ray service, completed here during the week-end, reveals that 1,860 persons took advantage of the free service since it was inaugurated Oct. 15.

Percentage of the population receiving the service was 80.2 per cent, which makes the Lethbridge campaign the best in the province to date.

Government and tuberculosis officials say they are more than satisfied with the result.

Edmonton Housewives Willing to Try Out Margarine

Most people in Edmonton haven't tried margarine before, but they're glad they're going to have the chance. That's how it sounds by the way seven housewives and a working girl talked to a Bulletin reporter today.

Mrs. L. McGowan, Estevale, who has tried margarine before, says, "It tastes good, and will be fine for cooking. I expect to save a lot of money."

like it," Mrs. Achter said she likes butter, but "you have to consider the price."

Housewife Ann Kussasky, 12120 83 street, was indifferent about taste, but the "difference in price sure looks good to me."

Another, Mrs. Ethel Cochamas, 100 Jasper avenue, was enthusiastic. "I think this margarine is a marvelous idea. I haven't tried

it before, mind you, but I think it's about time they gave Canada a chance to see whether they like it or not."

"I heard it's as tasty as butter," said Miss Gladys Lindstrom, unmarried but watching her budget closely. "Sure, I think it's a good idea to try it out for a while anyhow."

Another housewife who has tried margarine before, Mrs. M. M. Kovacevich, 10515 Saskatchewan Drive, declared that you can tell the difference, "but it tastes good. Will be a great saving in the kitchen."

"To 'hike' is the way housewives here," Mrs. A. R. Martin, 418 ASU, KCAF, talked about butter.

"I think margarine in Canadian homes is a wonderful idea," she enthused. "It will save us a lot of money. I haven't tried it before, but I'm willing."

The ingredients of margarine can legally be imported to Canada but they are not easily obtainable.

All oils and fats still are under international control because of the world shortage. Canada has to apply to an international

2 Commercial Buildings Given Council Approval

Two more commercial buildings will be erected in Edmonton if the Town Planning Commission accepts recommendations from city council to rezone properties selected as sites for these structures.

Council Monday night agreed to submit to the commission requests that property bounded by Kingsway on the north, 100 avenue on the south, and 100 street on the east and west be rezoned for commercial use.

LIGHT INDUSTRY

And that the north west corner of 106 avenue and 106 street be rezoned from residential to light industrial category.

If rezoning of the 106 avenue and 106 street property is sanctioned by the Town Planning Commission, the Independent Biscuit Co. intends to erect a warehouse on the site. The structure will be approximately 475 feet long, and will be set back to conform with residential in the area.

The Kingsway site, if rezoning is granted, will become the site of a manufacturing plant estimated to cost between \$200,000 and \$400,000.

NAME IS WITHHELD

The company was not disclosed in the communication from Whyte and Co., Ltd., agents negotiating the purchase of the property from the city.

THREE DOGS LIMIT FOR ONE HOUSEHOLD

An Edmontonian in future will not be permitted to keep more than three dogs in a single home in residential sections of the city.

City council last night passed a bylaw prohibiting the keeping of more than three dogs in any house except in light, and heavy industrial and agricultural districts.

The bylaw does not apply to premises lawfully used for the care and treatment of dogs operated by a duly qualified veterinary surgeon, nor to premises which by permission of the city commissioners may be temporarily used for dog show purposes.

Committee Is Established On Civic Administration

Four special committees of city council were set up Monday night by the parent body.

They are the child welfare, civic auditorium, utilities and civic administrative committees.

Aldermen to serve on the utilities committee are: Fred J. Mitchell, A. Bisset, K. C. E. Clarke, W. J. MacMillan, Dr. J. H. Sprague and Mrs. C. E. McManis. All will serve for three years.

The Civic Administrative Committee will consider the investigation into the appointment of one or more experts to inquire into and report on the entire civic administration.

Earlier this year a special committee under the chairmanship of

\$200,000 To Be Spent On Fire Alarm Extensions

Purchase of \$200,000 of electrical materials for the extension of the city's fire alarm system was authorized by city council Monday night.

Aldermen deferred action of authorization of the construction of communications building until capital estimates are submitted to city commissioners early in January.

BIG PROJECT SET

Commissioner John Hodgson estimated that the \$100,000 five-year capital expenditures plan would be submitted to city council for ratification in January.

Equipment and materials to be purchased include cable, \$35,000; replacements for obsolete alarm boxes, \$30,000; central office telephone equipment, \$20,000; and materials for equipping fire stations, \$20,000.

Recommending authorization of the purchase of communications building, said quotations from Northern Electric Co. on this equipment were submitted to city council for ratification in January.

Approved local improvements of \$4,263 for construction of paving main, concrete walk replacement and grading and graveling in various parts of the city.

Accepted recommendation from the Town Planning Commission that lot one to three, block 2, North Inglewood, and lots 11 to 13, block 28, Inglewood, be rezoned from one family to three-story business district. This property lies immediately adjacent to 118 avenue and one block west of 121 street. Their rezoning and sale would not interfere with any future subway construction.

Salvation Army Plan For Extension Backed

Request from the Salvation Army for 99-year lease on the Everdine Home property, South Edmonton, was referred by city council to the commissioners with power to act.

H. R. Miner, KC, leading a delegation appearing for the Salvation Army, said it was proposed to erect a \$50,000 addition to the home.

TO 70 INMATES

This addition would increase the home's capacity from 35 to 70 inmates.

The home, an obsolete fire hall, was leased to the Salvation Army more than 20 years ago, and has been used by that organization as a home for aged men.

Mr. Miner told aldermen that either a rebate on taxes or a long lease on the property was a prerequisite to carrying through the planned addition.

Mayor Harry Aldrich explained that a long term lease would be more acceptable to the civic administration.

Must Parade Set

Unit under parade of the 20th Heavy Anti-Aircraft Battery will be held at Prince of Wales Army at 8 o'clock this evening.

This is a pay parade and only members of the unit who attend or submit proper reasons for non-attendance, will be paid.

OBJECTS TIMED Reds Increase Range of New V-2 Rockets

LONDON, Dec. 14.—(AP)—The editor of Britain's new "Aircraft Annual" said yesterday that V-2 rockets may have built vast, increased range into a new version of the German V-2 rockets which fell on London.

John W. H. Taylor, well-known aviation writer, said "Newman Airline pilots have seen and timed moving objects believed to be Russian rocket weapons, flying over Scandinavia."

"Of great significance is that these rockets seem to follow the curvature of the earth instead of climbing to great height and then falling back like V-2s. If the Russians have produced a missile which can do this, they will have solved the problem of V-2's short range."

The German P-3 rocket had a range of only about 200 to 250 miles. It went into the air about 60 to 65 miles.

Taylor also wrote that "squads of powerful modern jet-bombers and fighters are already in service with the fled air force."

The RAF and USAF, on the other hand, still rely largely on improved models of aircraft in service before the end of the war, Taylor added.

Petrillo Wins, Records Again

WASHINGTON, Dec. 14.—(AP)—The government last night gave James C. Petrillo a legal go-ahead on his musicians union welfare fund, opening the way for immediate resumption of record making by AFL musicians.

Attorney-General Tom C. Clark and labor department solicitor William N. Tyson said the welfare arrangement between the recording companies and the Federation of Musicians is legal.

MADE SOLE TRUSTEE

Both sides had agreed on the selection of Samuel H. Rosenbaum, director of the Philadelphia Orchestra Association, as the sole trustee of the \$2,000,000 a year welfare fund.

The fund would be financed from a royalty of one cent to 2½ cents on each record, depending on the sales cost. The money is to be spent on free concerts to be staged by unemployed musicians, who would be paid for their services.

Petrillo and Clark agreed that Rosenbaum would be strictly a representative of the employees, and therefore the trusteeship and the welfare plan itself, does not violate the Taft-Hartley Act.

The end of the union ban on recording will signal the first recording of new numbers since Jan. 1 by instrumentalists who are members of the AFL, Federation of Musicians, headed by Petrillo. Some new numbers have been recorded overseas during the ban, and some in the United States with vocal accompaniment, but none by top American bands and instrumentalists.

SPEED UP OUTPUT

Three of the big four record companies—RCA-Victor, Columbia and Capitol—planned quick resumption of recordings to get new numbers in dealers' hands in time for the Christmas trade, Dec. officials said they were in no particular rush.

2 Russians Rejected For Air Lift Work

WISCONSIN, Dec. 14.—(Reuters)—United States air force headquarters for Europe yesterday rejected the application of two former Russian air force officers to take part in the Berlin air lift, the German news agency Dpa reported today. The officers, Lieut. Piragov and Lieut. Barov, recently fled the Soviet zone.

Dramatic Drive On Union's Reds

Ousted Officers Refuse To Recognize Exclusions

LONDON, Dec. 14.—(Reuters)—The most dramatic drive against alleged Communists ever undertaken by a British trade union yesterday left the 22,000-strong chemical workers union involved in a tangle which only high court action may unravel.

RAIN, RULES SEND HIM BACK TO CANADA

LONDON, Dec. 14.—(Reuters)—After 30 years in Canada, 47-year-old James Laidlaw, of Vancouver, returned to his native Britain to settle down. But rain and regulations have made him change his mind. He arrived at Liverpool in the liner *Comet* of Canada a week ago Sunday, he said it was raining.

Then he said he discovered that he would have to be here a year before regulations would permit him to open a business. Yesterday he boarded the cargo passenger vessel *Heaven*, bound for Liverpool, after spending \$1,500 on the trip. It was raining.

Details Of New Carrier Banned

HELIPAST, Dec. 14.—(Reuters)—The Admiralty has banned details of the new aircraft carrier *Illustrious*, an official of Harland and Wolff Limited, Belfast shipbuilders, said yesterday. On Admiralty orders the tonnage and engine power of the carrier, launched last June, were omitted from the annual review of the shipyard.

HE'S ASSURED CHEERY XMAS

VANCOUVER, Dec. 14.—(CP)—Walt Wallace has 220 bottles of liquid cheer for Christmas this year.

The liquor was taken away from him last January when he was fined in justice court for keeping liquor for sale.

Yesterday the conviction was quashed in county court and the 15 cases of liquor were returned to him in time for this year's festivities.

Heads Travellers

TORONTO, Dec. 14.—(CP)—F. M. Cockburn of Toronto was elected by acclamation as president of the Commercial Travellers' Association of Canada at a week-end executive meeting here. Directors include H. J. Miller, Calgary.

Those voted from office assert they are not Communists and refuse to recognize the exclusions.

Bob Edwards, general secretary of the union, was among those excluded.

Edwards has been general secretary about two years. He was a Communist in his youth and studied in Moscow and later fought with a disident Communist group in the Spanish Civil War. He has been known here for many years as a critic of the Communists.

Vancouver Man Holdup Victim

VANCOUVER, Dec. 14.—(CP)—Two daring holdup men entered the back door of George Pulliam's downtown business office late yesterday, thrust a gun against his stomach, and rifled his pockets of \$800.

Pulliam said one of the men pressed a multi-calibre automatic against his stomach and said: "This is it."

The other man cleaned his pockets.

Fate of Coal Is Unsettled

BRANTFORD, Ont., Dec. 14.—(CP)—Two coalfields of Alberta coal are on their way to be dismantled, but what will happen to them on a provincial level is uncertain today.

Last Friday Mayor Walter J. Dowden received a telegram from Mayor J. C. Wilson of Calgary announcing the two coalfields were on their way, and that Brantford had been selected as the city to receive the first two loads of Alberta hard coal shipped to Ontario.

Mayor Dowden told city council last night he had to further word until he received a request that Brantford provide trucks from a railway cars at the mine tipple.

Draft Bill Passes

LONDON, Dec. 14.—(AP)—The House of Lords approved last night a bill to increase the term of copyright in the United Kingdom from 25 to 30 years.

Miner Killed

BLAIRMORE, Alta., Dec. 14.—(CP)—Frank Ziegler, 31, an employee of the Great-West coal mine here was killed yesterday while switching railway cars at the mine tipple.

How Penicillin makes jobs for Canadians

Penicillin, life-saving product of medical research, begins with cultures of green mold. As the mold grows it secretes small amounts of penicillin.

The production of penicillin and other drugs and vaccines demands absolutely sterile conditions. So the tanks, trays, tables, filters and other equipment used are made of Nickel alloys for ease of cleaning and resistance to corrosion.

Practically all drugs, medicines, serums and vaccines in use today are products of scientific research. In designing laboratory equipment for their production, International Nickel has cooperated by supplying technical information regarding the most suitable metals.

The large quantity of equipment required for pharmaceutical laboratories creates a new market for Canadian Nickel, and so increases employment for Canadians. Thus does research develop better products, increase the use of Canadian Nickel and create more employment.

ENJOY A Winter Holiday AT THE EMPRESS HOTEL
VICTORIA B.C.
IN CANADA'S WARMEST WINTER CLIMATE

Revelation You'll discover the joy of spending a winter holiday in a balmy climate when you stay at the Empress Hotel in Evergreen Victoria. All winter long, no other spot in Canada can match it—for warm, sunny days... stimulating sea breezes... Old English hospitality!

Invitation Enjoy golf... tennis... dancing... winter swimming in a warm sea-water pool. At the ivy-laid Empress Hotel you'll find charming rooms, tasty cuisine and the traditionally fine Canadian Pacific service.
